Optional 1D/2D imager barcode reader

Intel HD graphics 5300

MIL-STD 810G and IP65 certified

Industry-leading bumper-to-bumper warranty

Healthcare Ready.

With an easy to clean design and enhanced security capabilities to protect patient information, the RX10H is the ideal tablet to be used in a healthcare environment where sanitization and secure patient information is paramount. The RX10H is certified to EN/IEC 60601-1.

Designed for Mobility.

Size matters when it comes to mobility. That's why we built the RX10H with a 10.1 inch display at only 2.65lbs and a razor thin 0.74in. It's not only lightweight but also easy to carry with the integrated ergonomic handle and embedded barcode scanner for patient information.

Expanded Functionality.

We designed the RX10H for increased functionality with our unique SnapBack add-ons. Integrated as an extension, you can add on a detachable keyboard, SmartCard reader, kick stand / hand strap based on your requirements. They easily snap right on or off — no tools necessary.

Built to Survive™.

The RX10H was engineered to protect the tablet against 4 foot drops, shocks, spills, vibration, dust, liquid and is even able to be operated in temperatures from -5.8°F to 131°F. The RX10 Healthcare has been independently tested and certified to MIL-STD 810G and IP65 standards.

Large 10.1" IPS Display.

The RX10H features a large 10.1" IPS FHD display utilizes our revolutionary LumiBond 2.0 technology to achieve a display that is more readable, and offers better contrast and more crisp colors than other rugged tablet displays.

Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every RX10H rugged tablet.

Specification subject to change without notice.

* Requires EN-IEC 60601-1 AC Adapter sold separately.

¹ Computers configured with a 32-bit operating system can address up to 3GB of system memory. Only computers configured with a 64-bit operating system can address 4 GB or more of system memory.

² For storage, 1GB = 1 billion bytes; actual formatted capacity less.

³ Data plan required. Cellular data is available in the US on Verizon Wireless and AT&T networks. LTE is available in select markets. Check with your carrier for details. 4G LTE configuration must be ordered at time of purchase.

⁴ Weight varies by configuration and manufacturing process.

⁵ 3-year bumper-to-bumper limited warranty standard. For warranty terms and conditions visit www.getac.com
